Detailed monthly and annual data by groups are available in INSTAT's statistical database: [Foreign Trade](#)

Methodology

The publication of Foreign Trade statistics is subject to methodological revisions, which are based on administrative data from customs authorities.

Foreign Trade in Goods is a monthly periodic publication that presents Albania's trade in goods with other countries of the world. The data processed by INSTAT for this publication are administrative data obtained from the General Directorate of Customs.

Definitions

Exports are goods destined to a third country placed under customs export or outward processing arrangements or re-exported following inward processing. The FOB (free on board) value of exports of goods is the value of the goods at the exporter's customs frontier.

Imports are goods arrived from a third country and are directly placed, or are left in a warehouse, under customs procedure of release for free circulation, inward processing, or processing under customs control. The cost, insurance and freight (CIF) price is the price of a good delivered at the frontier of the importing country, or the price of a service delivered to a resident, before the payment of any import duties or other taxes on imports or trade and transport margins within the country.

Combined Nomenclature (CN) is a goods nomenclature used by international trade in goods statistics and for customs tariffs.
