

## Results on Industrial Production Survey - PRODCOM

### Year 2023

**Tiranë, September 26, 2023:** INSTAT publishes the results on the Industrial Production Survey (PRODCOM) according to the Prodcom List detailed at an 8-digit level, which is used in the European Union countries. This survey is done with an annual frequency and covers all active enterprises which operate in mining and quarrying and manufacturing and aims to provide information on the production and sale of industrial products made by enterprises that carry out their economic activity in our country. These statistics based on PRODCOM survey serve to make analyses of industrial products produced in the country.

### Production and sale of most important industrial products

During 2023 it is produced 891,400 tons of crude petroleum. The production of pig iron and steel in 2023 was estimated 474,444 tons. During 2023, it is produced 822,206 tons of chromium ores and concentrates from and 2.176.865 tons of cement.

The production of non-alcoholic beverages and mineral and aerated waters was estimated 498,762,537 litres, increasing by 15.9 % compared with the previous year.

**Tab.1 Quantity and sales value of industrial products, 2022-2023**

Procom List Code	Description of product	Measure unit	2022		2023	
			Actual production	Sales value (million ALL)	Actual production	Sales value (million ALL)
6101000	Crude petroleum	ton	902,064	44,893	891,400	39,280
24101100	Pig iron, steel, and iron in other primary forms	ton	508,485	36,462	474,444	33,116
7291910	Chromium ores and concentrates	ton	1,399,017	30,963	822,206	20,359
23511210	Portland cement and other hydraulic cements	ton	1,589,298	13,488	2,176,865	19,387
23631000	Ready-mixed concrete	ton	1,930,593	13,016	1,776,111	13,363
29311000	Insulated ignition wiring sets of a kind used in vehicles	mln unit	208,411	7,482	229,973	8,256
10131461	Sausages and similar products of meat	ton	10,925	7,390	11,372	8,200
11071950	Non-alcoholic beverages	litre	114,246,310	6,496	120,857,410	6,926
15201351	Men's town footwear with leather uppers	pairs	9,192,631	6,724	8,926,473	6,695
11071130	Mineral waters and aerated waters	litre	316,082,892	5,229	382,672,267	6,295

*Note: Industrial products at 8-digit level do not necessarily represent all the amount of industrial products produced at economic activity level.*

**For release 26/09/2024**

*Continues*

The sales value for the crude petroleum during 2023 was 39,280 million ALL. The sales value for the pig iron and steel during 2023 was 33,116 million ALL. The sales value for the chromium ores and concentrates during 2023 was 20,359 million. The sales value for portland cement and other hydraulic cements during 2023 was 19,387 million ALL.

The sales value of non-alcoholic beverages and mineral and aerated waters was 13.221 million ALL, increasing by 12.8 % compared with the previous year.

**Fig.1 Sales value of industrial products, 2022-2023**

During 2023, metallurgy accounted for 13.5 % of the total sales value of industrial products, from 15.2 % in 2022. Manufacture of food products accounted for 11.7 % of total sales in 2023, from 11.4 % in 2022, while the extraction of crude petroleum accounted for 10.5 % of total sales in 2023 from 11.2 % in 2022.

The Figure 2 presents the sales value of industrial products, according to the divisions of Statistical Classification of Economic Activities Rev.2 (NACE Rev.2).

**Fig.2. The sales value of industrial products, according to the division of economic activities**

#### Division of economic activities according to NACE Rev.2

- 06 - Extraction of crude petroleum
- 07 - Mining of metal ores
- 08 - Other mining and quarrying
- 10 - Manufacture of food products
- 11 - Manufacture of beverages
- 12 - Manufacture of tobacco products
- 13 - Manufacture of textiles
- 14 - Manufacture of wearing apparel
- 15 - Manufacture of leather and related products
- 16 - Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials
- 17 - Manufacture of paper and paper products
- 18 - Printing and reproduction of recorded media
- 20 - Manufacture of chemicals and chemical products
- 21 - Manufacture of basic pharmaceutical products and pharmaceutical preparations
- 22 - Manufacture of rubber and plastic products
- 23 - Manufacture of other non-metallic mineral products
- 24 - Manufacture of basic metals
- 25 - Manufacture of fabricated metal products, except machinery and equipment
- 26 - Manufacture of computer, electronic and optical products
- 27 - Manufacture of electrical equipment
- 28 - Manufacture of machinery and equipment n.e.c.
- 29 - Manufacture of motor vehicles, trailers and semi-trailers
- 30 - Manufacture of other transport equipment
- 31 - Manufacture of furniture
- 32 - Other manufacturing
- 33 - Repair and installation of machinery and equipment

# Methodology

The Industrial Production Survey (PRODCOM) is an annual survey, which purpose is to collect and produce statistics on the production and sale of industrial products carried out by enterprises in the Republic of Albania. The industrial product term refers to both products that have a physical dimension and industrial services.

PRODCOM survey covers all active enterprises which operate in Mining and quarrying and Manufacturing, respectively sections B and C of the Statistical Classification of Economic Activities in the European Union (NACE Rev. 2). This survey is based on a statistical classification (Prodcom List) containing about 4000 different types of products. The Prodcom list is detailed at the 8-digit level and is used in European Union countries. Industrial products at an 8-digit level do not necessarily represent all the amount of industrial products produced at economic activity level.

Structural business statistics are published according to the European Commission regulations:

- EU regulation 2019/2152 on European business statistics (EBS);
- EU implementing regulation 2020/1197 on technical specifications and arrangements for European business statistics;
- Classification of PRODCOM (Prodcom List) which is created through a separate Implementing Regulation.

## Definitions of basic variables:

**Actual production** (in units of measurement as defined in the Prodcom List) refers to the production produced by the enterprise during the reference year.

**Sold production** (in units of measurement as defined in the Prodcom List) refers to the production produced by the enterprise during a certain period of time and sold during the reference year, regardless the time of production.

**Sales Value** refers to the invoiced amount from the sale of industrial products during the reference year, excluding value added tax.

Based on the Statistical Policy of INSTAT and EU Implementing Regulation 2020/1197, the data for the previous year have been revised due to new administrative data sources and the survey realized during 2023.
