

# European Statistics Day, October 20, 2017

*Place: National Historic Museum, UNESCO Hall, 15.00-16.30*

The European Statistic Day is an opportunity to raise public awareness on the importance of official statistics as a public good.

This day will aim at exchanging experiences with the general public, policymakers, businesses, research community, media and citizens on the use of official statistics.

During this day, INSTAT, in cooperation with the Municipality of Tirana and the Ministry of Finance will organize a public event with the aim of raising awareness on the use of statistics. During this event, visual tools will be used to promote statistics as a public good.
