

Import Price Index

Second quarter, 2019

Tirana, 06 September 2019: Import Price Index in the second quarter 2019 decreased by 0.8 %, comparing with second quarter 2018 and decreased by 0.6 %, comparing with first quarter 2019.

Fig. 1 Annual changes of Import Price Index by quarters

Annual change : Import Price Index in the second quarter 2019 decreased by 0.8 % comparing with second quarter 2018. The import prices of products in “Manufacturing” section, which occupies the highest weight in the value of imports, signed a decrease by 1.2 %. In this activity can be mentioned the decrease of import prices in “Manufacture of tobacco products” activity by 8.0 %, followed by “Manufacture of textiles” by 6.6%, “Manufacture of machinery and equipment” by 3.5 %. Comparing with the second quarter 2018, import price index in “Manufacture of coke and petroleum products refinery” activity signed an increase by 5.4 % followed by “Manufacture of electrical equipment” by 4.7%.

Quarterly change: Import Price Index in the second quarter 2019 decreased by 0.6 % comparing with first quarter 2019. Import Price Index in the second quarter 2019 in “Manufacturing” section which occupies the highest weight in the value of imports signed a decrease by 0.2 % compared with first quarter 2019.

Methodology

The industrial import price index, measures the changes of transaction prices of imported products to be traded in the domestic market.

INSTAT calculates and publish:

- Import Price Index
- Quaterly and anually chanches of the index.

Import Price Index covers the following economic activities:

Section B Mining and quarrying

Section C Manufacturing

Section D Electricity, gas and steam supply

Section E Water supply, sewerage and waste

Index calculation

The indices are calculated for each product classified according to the Classification of Products by Economic Activity (CPA 2008) in 6 – digit level and are published in two digit level.

Measures of index

The annual change measures the price change between the current quarter and the same quarter of previous year. This measures is responsive to recent changes in price levels but can be influenced by one –off effects in either quarter.

Quarterly change measures the price changes between current quarter and previous quarter.
