# Methodology

This publication contains detailed data on the level of wages, their distribution and the change over the quarters, These statistics offer an opportunity to compare salaries in different industries and for different occupational groups, Wage statistics are also of particular importance to the monitoring of economic indicators that are used by policy-makers, employers and trade unions to assess job supply and job requirements,

## Legal Base

- Law No,17/2018 on Official Statistics
- Official Statistics National Programme 2017-2021
- Memorandum of Cooperation with the General Directorate of Taxation

## Source of Information

The source of Information on wages is the General Directorate of Taxation, based to the memorandum of cooperation. The data are from the enterprises payroll (E- SIG 025 form),

This form serves to declare three types of tax liabilities:

- Social Security Contributions,
- Health Insurance Contributions
- Income from Employment of Employees,

Variables are three types: original variables from DPT, additional variables from INSTAT and derived variables. The two main variables of interest are the number of employees and the gross wage paid to the employee.

## Definitions

*Average monthly wage* - is the gross wage of an employee for the work performed per month,

This is constituted by the following elements:

- Basic wage for job performed
- Additional payment for managerial duties
- Additional payment for years at work
- Additional payment for difficult working conditions
- Other regular additional payments

Social security contributions and taxation on income are not deducted from the average monthly wage,

*Monthly minimum wage* - is the official minimum wage approved by a Decision of the Council of Ministers,

*Salary contributors in the sector of Agriculture, Forestry and fishing* - are considered all employees declared

in the General Directorate of Taxation, by farms / agricultural enterprises.
