3.9. Base period	Not applicable.
4. Unit of measure	Number of individuals.
5. Reference period	This report refers to 2020.
6. Institutional mandate	
6.1. Legal acts and other agreements	<p>The legal basis for the production of indicators of Foreigners in Albania is part of the legal basis of INSTAT:</p> <ul style="list-style-type: none"> • National Statistical Law • Official Statistics National Program 2017-2021 <p>The definitions are based on:</p> <ul style="list-style-type: none"> • Law No.79 / 2021 “On Foreigners”
6.2. Data sharing	Actually there is no data sharing in European level.
7. Confidentiality	
7.1. Confidentiality -	Data collected by statistical units are considered strictly confidential and are

policy	<p>used only for statistical and research purposes based on national Statistical Law No.17/2018 “On Official Statistics”, date 10.03.2018 and on Law No.9887, date 10.03.2008 “Personal Data Protection”. Article 31 on Statistics Law reads as follows: Data collected for the production of official statistics shall be treated by INSTAT as confidential and shall be used only in aggregated tables that will not identify the source information unit. Direct identification means when a statistical unit is directly identified from its name or address or any officially allocated and commonly known identification number. When data processing is made in a manner that allows the identification of the data subject, the data should immediately be encrypted in order for the subjects to be no longer identifiable.</p>
7.2. Confidentiality - data treatment	<p>Albanian Institute of Statistics protects and does not disseminate data it has obtained or it has access to, which enable the direct or indirect identification of the statistical units. Albania Institute of Statistics takes all appropriate preventive measures so as to render impossible the identification of individual statistical units by technical or other means that might reasonably be used by a third party. Statistical data that could potentially enable the identification of the statistical unit are disseminated by Albania Institute of Statistics if and only if:</p> <p>a) these data have been treated, as it is specifically set out in the Regulation, in such a way that their dissemination does not prejudice statistical confidentiality or</p> <p>b) the statistical unit has given its consent, without any reservations, for the disclosure of data.</p> <p>The confidential data that are transmitted to Albania Institute of Statistics are used exclusively for statistical purposes and the only persons who have the right to have access to these data are the personnel engaged in this task. Issues referring to the observance of statistical confidentiality are examined by the staff working in Albania Institute of Statistics. The responsibilities of this staff are to recommend on: which detailed level the statistical data can be disseminated, so as the identification, either directly or indirectly, of the surveyed statistical unit is not possible; the anonymization criteria for the microdata provided to users; the access granting to researchers on confidential data for scientific purposes.</p>
8. Release policy	
8.1. Release calendar	<p>Notifications about the dissemination of statistics are published in the release calendar, which is available on the website. The announcements and delays are per-announced in this calendar. In the case of delays, the date of the next publication and the explanation of the reasons for the delays are specified.</p>

Date of announcement	8/20/2021								
Date of publication	12/22/2021								
Time lag	124								
15. Coherence and comparability									
15.1. Comparability - geographical	Statistics on Foreigners in Albania are presented at the national level. These statistics are comparable as the institutions that provide us with the data coordinate the data collection process.								
15.2. Comparability - over time	Statistics for Foreigners in Albania date back to 2005 referring to the statistical database, providing a long time comparison of 16 years (CC2 = Jlast-Jfirst + 1 = 16).								

	The data are constantly checked to ensure their comparability over time.
15.3. Coherence - cross domain	Not applicable.
15.4. Coherence - internal	The internal consistency of the data is checked before finalizing. The evaluation of time series and their trend are also checked.
16. Cost and burden	<p>The sector of Population Statistics is part of the Directory of Social Statistics. The staff involved in the procedure of data collections, data control, update and maintains of statistics, works full time and are as following:</p> <ol style="list-style-type: none"> 1. Head Office 1 employee 2. Specialist 3 employees <p>The data from administrative sources are free of charge as they are provided through a cooperation agreement between INSTAT and Ministry of Internal Affairs create the ability to transmit data at no cost.</p>
17. Data revision	
17.1. Data revision - policy	<p>Revision policy of Foreigners in Albania Statistics is done in accordance with general revision policy and errors treatment policy introduced by INSTAT in the links below:</p> <ul style="list-style-type: none"> • Revision Policy • The Errors treatment Policy
17.2. Data revision - practise	<p>If the authorities that send information on Foreigners in Albania Statistics to INSTAT will report changes in the information provided through tables, this data will be updated and published in the forthcoming publication accompanied by an explanatory note to the user.</p> <p>No revisions of the data on Foreigners for 2020 have been conducted, subject to this report.</p>
18. Statistical processing	
18.1. Source data	For foreigners statistics the data source is only administrative data. Data on foreigners with residence permits in Albania as well as irregular foreigners are provided by the Department of Border and Migration. Referring to the data on applications for residence permits and residence permits in the territory, the information is provided through the Electronic Register for Foreigners (FER).
18.2. Frequency of data collection	Frequency of data collection is done in annual frequency.
18.3. Data collection	Data on Foreigners in Albania are data from an administrative source. The Institute of Statistics organizes the work for the calculation of indicators and statistics on Foreigners in Albania for 2020, oriented by the Official Statistics Program and the Law on Statistics. Department of Border and Migration is the

	main source of data for all indicators published under this program.
18.4. Data validation	The data were logically and mathematically checked. These controls are performed throughout the data processing process, for all indicators that INSTAT publishes. Among the methods of verifying administrative data we can mention: Check for data completeness, consistency over time, arithmetic corrections (should not be too high), summary checks, time series check if there are large deviations, etc..
18.5. Data compilation	Not applicable.
18.6. Adjustment	Not applicable.
